

Having a daily routine and schedule can help your child stay engaged. Here are some TK-5th grade at-home learning ideas.

Math

- Use dice to create a game
- Practice math activities through [IXL](#)
- Use a deck of playing cards for math challenges
- Play a game that involves mental math & counting
- Estimate the cost of the ingredients for your favorite meal
- Make a math problem for others to solve
- Play Yahtzee
- Do a Sudoku puzzle
- Make a recipe; cut it in half or double it
- Pick a number; write formulas in many different ways to get to that number
- Practice [math facts](#)

Language Arts & Writing

- Read for 30 minutes; tell someone else about your book
- Write in a journal each day; write about what you see or what you know lots about
- Create a found poem using an old magazine or newspaper
- Write an opinion paper on something you read about or watched today
- Create a postcard and write a note to mail to a friend or relative
- Play 20 questions
- Make a black-out poem
- Listen to an episode of [What if World](#) and then write your own version
- Visit [Storyline Online](#) and listen to a story
- Go to [Wide Open School](#) for LOTS of resources

Science

- Make edible science projects (phases of the moon, s'mores oven, DNA candy model, etc.)
- Have a paper airplane flying contest
- Build a [Rube Goldberg machine](#)
- Go on a nature scavenger hunt
- Watch an episode of [Crash Course Kids](#)
- Create a building challenge using Legos or recyclables
- Listen to an episode of [WOW in the World](#)
- Explore [Mystery Science](#)
- Play some engineering games on [PBS Kids](#)

Social Studies

- Watch an episode of [Crash Course in World History](#)
- Make a time capsule to tell future generations about 2020
- Listen to an episode of [The Past & the Curious](#)
- Plan an adventure using a map
- Check out [National Geographic Kids](#)
- Play some social studies games on [PBS Kids](#)
- Create a story about a historic event, but change the ending
- Go to [Wide Open School](#) for LOTS of resources
