

SPS Renovation Project Progress

April 21, 2023

Phase Four Demolition Nearing Completion

Former MS & HS Office, Media Center, and Classrooms

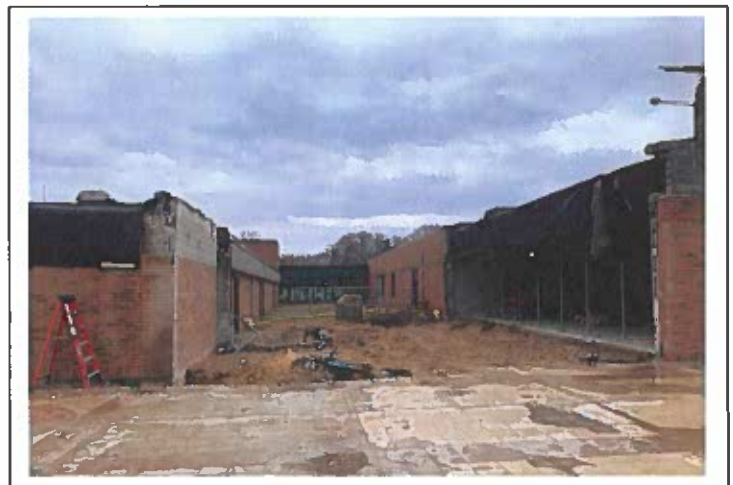

Demolition of the MS/HS office, media center, computer labs, and interior classrooms is nearly completed. Rebuilding the “heart” of the middle school & high school will begin soon, along with the addition of a new secure front entrance and principal’s office.

Phase four construction, which includes the learning commons, innovation lab, new MS/HS office, renovated MS art room, technology lab, special education suite, science lab and student services suite is scheduled for completion in May 2024.

Middle school classrooms will get new carpet, countertops, paint and furniture this summer. New classroom technology has already been installed in the middle school.

Renovations at Douglas Elementary School have been completed and students and staff are thoroughly enjoying the phenomenal new learning spaces. The following safety and security features were included in the renovation: fire suppression, secure entrance, emergency radio signal boosters, security cameras, emergency lock down button, exterior speakers, emergency HVAC controls, magnetic door holds for lower elementary, thumb turn door locks, key card access, window security film at front entrance, and emergency paging/notification clocks.
